

Shipping company website (Transport SH)

The objective of this project isL

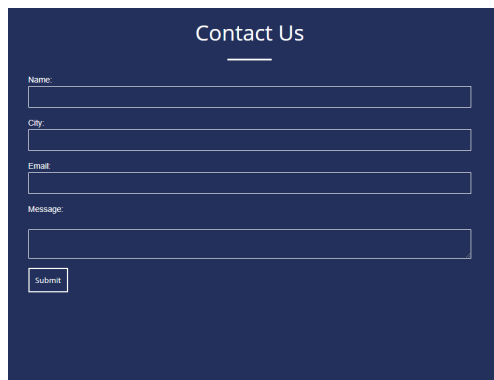

- 1 to communicate companies offerings and service
- 2 to create a quotation form for client to submit

Team Contribution

I did this project by myself

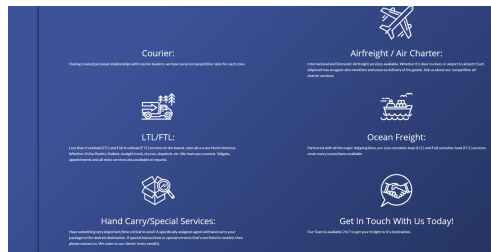

Features/Functions

Contact form in the footer

A dark blue contact form titled "Contact Us" with a horizontal line underneath. It contains four input fields: "Name:", "City:", "Email:", and "Message:". Below the "Message:" field is a "Submit" button.
